**AUDIENCE**

**Minimal sound needs:** 2 mains, 1 monitor, mixer with 6 inputs, 4 mic stands (boom stands preferred), three vocal mics, 2 instrument mics (we can provide microphones as requested), 6 microphone cables and 1 ¼ inch cable for bass, at least two grounded electrical outlets.

**Sound Preferences:** No bass or guitar in the monitors (they have their own on-stage amps)—only vocals, dobro/banjo, and violin. We prefer a semi-circular setup with same mix in each monitor.
